SMALL-SCALE PARTNERSHIP
IN YOUTH - KA210

call for partners!

Shortly about the idea..

02

"The Choice Is Yours" is a KA210 - YOUTH Small-Scale Partnership project that aims at providing learning materials to youth workers, educators and potential employers hiring young people just entering the labour market, that will **promote a better understanding of LGBTQ+ issues**, protection of LGBTQ+ rights, ways of providing a convenient learning/work environment, as well as adequate nomenclature to ensure non-discrimination and open communication in daily work with LGBTQ+ youth.

These materials will be a guideline for those who work or employ LGBTQ+ youth, so that they can, without overexposing them, provide proper care, respect, and thus create favourable and respectful conditions for their co-existence in certain social groups.

03.

Through this project we want to show young people that **the CHOICE is theirs, and we are here to SUPPORT them,** by educating, raising awareness and providing guidelines

04. Main activities:

- 1) Two international training events, related to LGBTQ+ issues and terminology as well as the methodology of creating educational materials etc.

About us

We are a young Polish Foundation consisted of experienced and educated staff. Through our activities, we expand the cultural offer in the region - reaching mainly those places where access to culture is limited. We protect cultural heritage and cultivate local traditions. We inspire others with our passion for travelling, exploring the world and experiencing cultures. We conduct activities aimed at integrating migrants with the local community. We activate young people and support them in creating youth policy. We also conduct outdoor activities. In all our projects we focus on cooperation that is why the name of the Foundation is "Cooperacja" (Cooperation).
