# Take Action in Integration!

SMALL-SCALE PARTNERSHIPS  
IN ADULT EDUCATION - KA210

call for partners!

# Shortly about the idea..

02

**"Take action in integration!"** is a KA210 - ADULT EDUCATION Small-Scale Partnership project which focuses on educational activities for adults working with migrants on a daily basis.

Through these activities, we will acquire knowledge and skills that will enable us an effective support of migrant communities, but also to jointly develop solutions that will contribute to our daily work. We will get inspired and we share our experiences, all in order to enhance our resources while working with migrants.

03.

Through this project we want to develop **innovative** and **comprehensive** solutions to make working with migrants more effective.

# 04. Main activities:

- 1) Two international training courses on working with migrants, animating these communities, holistic support and ways to approach these groups at the risk of social exclusion
- 2) Creation of recommendations
- 3) Dissemination event where recommendations will be presented

05.

# Why do we want to cooperate internationally?

✓ we want to learn the situation of migrants in other countries

✓ we want to share ideas and create something important together

✓ we want to share experience and knowledge with others

✓ we want to inspire and get inspired by others

06.

# Who are we looking for?

✓ motivated NGOs  
working with  
migrants, with  
fewer experience

✓ NGOs willing to  
expand their  
network

✓ NGOs ready to  
cooperate  
internationally and  
gain new  
experience

07.

# Are you in?

Interested NGOs from Programme Countries are asked to  
send their PIF, PIC, OID Number to:

[cooperacja.internationally@gmail.com](mailto:cooperacja.internationally@gmail.com)

until 18.10.2021!

(Title: Take action in integration!)

After receiving all documents, we will contact with  
selected NGOs

08.

# About us

We are a young Polish Foundation consisted of experienced and educated staff. Through our activities: we support **migrants** in the process of integration, by providing free Polish language classes, offering counselling at a mobile info-point for foreigners, and organising cultural and animation activities; we increase access to culture (including the so-called high culture) and expand the cultural offer in the region by organising workshops and study visits - reaching the places where access to culture is limited; we promote and protect both tangible and intangible cultural heritage through the cultivation and preservation of local traditions, legends and history; we stimulate social and civic participation and promote democracy by animating and supporting various communities of all ages; we promote wellbeing, physical activity and contact with nature by organising outdoor initiatives and wellbeing training; we carry out educational activities using non-formal education methods, mainly through international collaborative networking on important social issues; and finally, we engage in and initiate various anti-discrimination and equality activities and campaigns. In all our projects we focus on cooperation that is why the name of the Foundation is "Cooperacja" (Cooperation).
